

TECHNICAL DATA SHEET

SECUMAX 564 NO. 564001

Safety technology

Safe special ground - maximum safety

The cutting edges are not angled, but straight ground. This means: No danger for your fingers. Therefore our safety scissors all carry the name SECUMAX = maximum safety.

SAFETY SCISSORS WITH LONG CUTTING EDGES AND FINGER-FRIENDLY SPECIAL GRINDING.

Order No. 564001.00

Thumbs up – for very long cuts.

The SECUMAX 564 is characterized by its thumb opening and its extra-long edge, which also makes an ideal support surface. These safety scissors enable you to completely control your work. Moreover, you need fewer cuts to complete the job of cutting through cardboard, paper, foil, fabric and much more. Highest safety guaranteed by the special sharpening of the cutting blades and the rounded tips.

Sharp, but not dangerous!

Take a good look at the cuts. Noticed anything? None of them have been cut at an angle, as all of the cuts are at right-angles. Therefore you cannot cut yourself, only the large range of potential materials.

Non-rusting stainless steel

You will be able to use your scissors for a very long time as the metal parts are made from non-rusting stainless steel. The handles have been coated in a plastic reinforced with fibreglass. Another guarantee for a long service life.

Comfortable working

The experts call them "eyes" and these are the two openings in which you insert your fingers to securely hold the scissors. The "soft-grip" on the insides also helps to ensure comfortable and non-slip working.

Extra-long cutting edges

Fast and controlled – you will cut through easily using the SECUMAX 564 Fast, thanks to the long cutting edges. Controlled, as the entire length from the finger opening to the tip can be used as a support surface.

Sturdy connection

A matter of course for quality scissors: Both of the cutting edges are held together by a real screw. This ensures stable cohesion and permanent high cutting power.

USAGE

Knife size (L x W x H)	218 x 12 x 82 mm	Size (PU)	110 x 250 mm
Weight knife	93.0 g	Weight (PU)	112.0 g
Basic material	Stainless steel	EAN Code (PU)	4002632921322
		Quantity in outer pack	10 scissors
		Weight outer pack	1216.8 g
		EAN Code outer pack	4002632972645
		Customs tariff number	82130000

SECURITY ADVICE

Please read these instructions and keep them safe so that you can use your new MARTOR scissors safely and in the best possible way.

1. Usage advice: Always use the Safety Scissors with great caution, even though it looks like the protected cutting edge of the scissors fundamentally offers protection from cut and stab injuries. Please only use the scissors for the above-mentioned materials in an appropriate fashion and always carefully. With this in mind, respect the correct handling and usage of the Safety Scissors. Any other usage can lead to damaging the product or even other nearby items. Through inappropriate usage, e.g. knocks, bangs or falling from even a low height, the scissors can become damaged. In particular, the scissors must not be used in a way that can cause a crushing hazard to the hands or other limbs. Always guide the Safety Scissors in a straight line away from you and keep them at a constant suitable angle.

2. Storage/Nonuse of the scissors: When you are not using the scissors, keep them in a safe place. If the scissors are visibly damaged, do not use them.

3. Care advice: Protect the scissors from moisture and heat and store in a dry place. From time to time, put a drop of oil in the screw slots so that the cutting action remains smooth.

CAUTION: No liability will be assumed for consequential losses. Subject to technical changes and errors! This scissor does not belong in the hands of children!

ACCESSORIES

BELT HOLSTER M WITH CLIP NO. 9921

What do you do with your cutting tools when you are not actually using them? The MARTOR BELT HOLSTER M is a robust holder that allows you to carry all midsize MARTOR knives as well as our safety scissors at all times. In addition, the interior and exterior pockets are designed to allow you to load different tools: for example you can carry an extra safety knife, a pen and a pack of blades. The MARTOR BELT HOLSTER is the ideal place to stow your tools safely when moving from A to B - and have them at hand, as soon as they are required.
