

SECUNORM PROFI25 MDP  
THE ALL-ROUNDER THAT CAN GO DEEP.

THE SAFER WAY TO CUT.

**martor**

# SECUNORM PROF125 MDP

## NO. 120700

Original size

### Can be metal detected

While working, a cutting tool – or parts of it – can sometimes get lost. But only for a short while. Because the plastic that can be detected by a metal detector ensures that you find it again fast.

### No paint

You would like to avoid risks in your job, wherever possible? That's understandable. An unpainted handle minimises the risk of contamination of the production process.

### Robust handle

The plastic insert of the SECUNORM PROF125 MDP is in an aluminium handle. With its robust design, it is predestined for high cutting frequencies and a long life.

### 2-cutting edge blade

Before you have to change the quality blade, you can turn it around once. This doubles the usage time of the blade – and reduces the energy you use up. Because your product cuts like new again.

### Tool-less blade change

Blade changing is quick to work out. Literally. You just need to slide the metal detectable plastic insert out of the handle and replace the old blade with a new one.

## Professional in every respect. Metal detectable.

Our SECUNORM PROF125 MDP is aptly named. „PROFI“ because this cutter really does behave professionally. Whatever the situation, whatever the cutting material. The „25“ is in reference to its impressive blade extension of 25 mm, with which even 3-ply cardboard can be cut. And finally, the „MDP“ tag means that all plastic parts of this cutter can be detected by a metal detector.

## PRODUCT FEATURES

### Technical features

	High safety		Metal detectable
	X-ray detectable		Tool-less blade change
	Very abrasion resistant		Very ergonomic
	2-cutting edge blade		Cutting depth
	For right and left handers		Stainless

### Main cutting materials

	Cardboard: up to 3-ply		Wrapping, stretch, and shrink foil
	Plastic strapping band		Tape
	Bagged goods		Layers of foil or paper

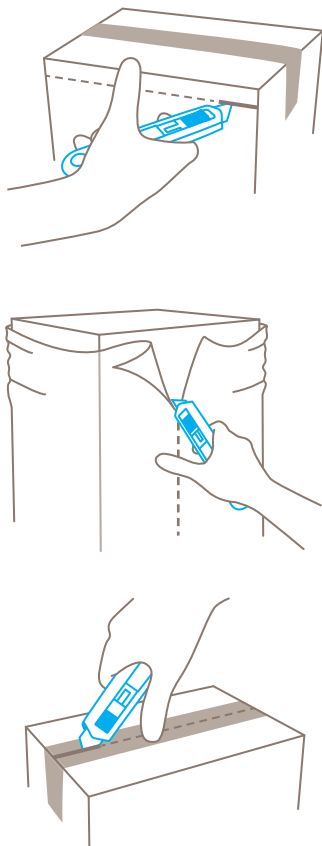

### Installed blade

	<b>NO. 199</b>	0.63 mm, deep-edged, stainless
--------------------------------------------------------------------------------------	----------------	--------------------------------

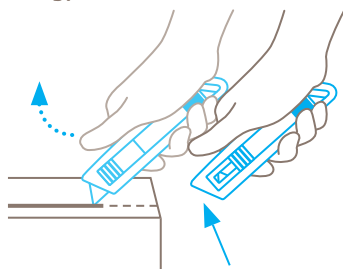

### Certificates and awards

### Application

### Safety technology

#### Automatic blade retraction – a high degree of safety

The automatic blade retraction of the SECUNORM PROF125 MDP guarantees a high degree of safety from cut injuries. As soon as you have started to cut, take your thumb off the slider. The blade can thus withdraw back into the handle immediately after leaving the material being cut.

# THE PERFECT FIT FOR ALL.

## SECUNORM PROFIZ5 MDP

- › Large cutting depth
- › Very abrasion proof thanks to the aluminium
- › Metal detectable plastic
- › Automatic blade retraction
- › GS-certified for approved safety

## PRODUCT DETAILS

<b>Order No.</b>	NO. 120700.02
<b>Packaging unit</b>	1 in single unit box (10 in multipack)
<b>Knife size (L x W x H)</b>	143 x 17 x 31 mm
<b>Main material</b>	Aluminium
<b>Weight</b>	84.5 g
<b>Cutting depth</b>	21 mm
<b>Spare blade Packaging unit Size (L x W x Thickness)</b>	NO. 199.70 (10 in dispenser) 60 x 19 x 0.63 mm
<b>Certified</b>	GS certificate NO. 179404-7116-55094- 202060112078
<b>Accessories</b>	
BELT HOLSTER S WITH CLIP	 NO. 9920
HOLSTER SMALL	 NO. 9842
USED BLADE CONTAINER	 NO. 9810
WALL MOUNT BRACKET USED BLADE CONTAINER	 NO. 9845
SAFEBOX	 NO. 108000
MDP TEST CARD SET	 NO. 9910

## CONTACT AND SERVICE

What makes our cutting solutions even safer? Our advisory services! We are always on hand, to give advice, to provide you with training material, to meet with you in person if necessary.

You will find further information on our website:
