

## Firefighting drone robog GX-KP150

Easy and convenient to operate, with strong applicability in the industry, combining features such as long endurance and stable flight in its class. Equipped with two 25KG forest fire extinguishing bombs, emergency rescue operations are more efficient and reliable.

01

Fast storage  
Convenient transportation

02

Super long flight time  
Independent inspection

03

Image data integration  
Accurate and efficient

04

Module design  
Maintenance convenient

05

Pure electric power  
Safe and reliable

06

Widely used  
Multi-environment application rate and efficient

### Product Parameter

- ✓ Symmetrical wheelbase 2300mm
- ✓ Service temperature -20°C~60°C
- ✓ Storage mode:Splice structure disassembly storage
- ✓ Endurance >50min (No wind, unloaded)
- ✓ Self weight <34KG
- ✓ Maximum Takeoff Weight 110KG
- ✓ Flight Level Limitations 4500m

### Application

Assembly within 3 minutes

Emergency rescue

Equipped 2x25KG forest fire extinguishing bombs
