

Firefighting drone robot GX-KP60

Simple and convenient operation, strong applicability in the industry combined with characteristics such as long endurance and stable flight within its class. Emergency rescue operations are more efficient and reliable

01

Fast storage
Convenient transportation

02

Super long flight time
Independent inspection

03

Image data integration
Accurate & efficient

04

Multipoint layout
Cluster fire extinguishing

05

Module design
Maintenance convenient

06

Pure electric power
Safe & reliable

Product Parameter

- ✓ Symmetrical wheelbase 1850mm
- ✓ Service temperature -20°C~60°C
- ✓ Storage mode:Splice structure folding storage
- ✓ Endurance>50min (No wind, unloaded)
- ✓ Self weight<23KG
- ✓ Maximum Takeoff Weight70KG
- ✓ Flight Level Limitations 4500m

Application

Assembly within 3 minutes

Emergency rescue

Equipped 2x25KG forest fire extinguishing bombs
