

Dräger X-plore 6570 Full Face Mask

The Dräger X-plore 6570 is the high comfort full face mask used by professionals in a wide variety of applications. It is the successor to the Panorama Nova RA masks, a range which has proven itself over decades of use worldwide. Its robust but flexible and skin-friendly mask body made from silicone features high wearing comfort – even when used for long periods of time.

Dräger X-plore 6570

ST-7501-2005

Benefits

Single-filter full-face mask

- standard thread connection Rd40 according to EN 148-1
- silicone mask body, visor made of triplex or PC
- to be used with all filters with standard thread connection Rd40

Silicone mask body for safety and wearing comfort

A double sealing frame with threefold sealing edges offers safe protection and a secure fit for almost all face shapes. The mask body is made of durable and hypoallergenic silicone (blue or yellow colour) which provides non-compromising wearing comfort – even during prolonged use.

Large field of vision

The distortion-free lens with 180° wide angle provides a large field of view with excellent peripheral vision. The lens is made from impact-proof polycarbonate with either a plastic or stainless steel lens frame available.

Efficient ventilation system

The efficient ventilation system with separate inner mask prevents the visor from misting up and provides a clear view.

Versatile use

The X-plore 6570 is equipped with an Rd40 connection in accordance with EN 148-1 for use of the Dräger X-plore Rd40 filter series.

5-point harness

The comfortable 5-point head harness not only ensures that the mask can be donned easily and quickly, but is wide enough to prevent any pressure points on the wearer's head.

Simple servicing and logistics

One universal size simplifies logistics and storage. The inside barcode allows for ease of recording and servicing the mask inventory.

Clear voice communication

An integrated stainless steel voice diaphragm facilitates good communication.

System Components
