

# SG100-N2 ONLINE GAS DETECTOR

SG100-N2 gas detector is an intelligent hot-pluggable fixed gas detector, which is easily for maintenance after installation and continuous monitoring of toxic gases, oxygen, flammable gases. With IECEx, ATEX certificates, explosion level reaches Ex db IIC T6 GB/E x db ia IIC T6 G B/Ex da db ia IIC T6 GB. Having a 3-wire 4 to 20 mA analog output with relays, it also offers HART, RS485 Modbus protocol, making it compatible with most control systems. Adopt magnetic wand design, it's safe and easy to do menu navigation in explosion areas.
