

Video Capture System

for Evolution® 5000 Series TICs

- Records whatever displays on your TIC screen
- Fast and easy retrofit of your TIC
- Up to two hours of recording time
- View incidents later on your PC

To meet your increasing needs for documentation and training, MSA's Video Capture System for any Evolution 5000 Series TIC gives you fast, easy video recording of the imager's original screen.

Now, you can record up to two hours of video of what your Evolution 5000 Series TIC sees!

Later, everything that happened on scene can be reviewed.

This small, easy-to-use, stand-alone unit works with all Evolution 5000 Series TICs, receiving the video signal through the SMA connector within the TIC housing's left side.

*Because every life has a **purpose...***

Evolution 5000 Series Video Capture

- Small, easy-to-use, stand-alone video device records screen action of any Evolution 5000 Series TIC for up to two hours
- Connects in seconds
- Provides downloadable video clips of fireground for record-keeping and training

Take a few seconds to add this feature to your MSA TIC!

- Connect to SMA port
- Strap unit to housing
- Turn on TIC
- Start recording action

Video Capture Operation

- No wireless transmissions
- .mpeg 1 format
- Standard RS-MMC card 512-MB
- Standard flash memory card reader
- Download video clips to PC
- Store, view and follow-up for documentation
 - SM Player software required to view videos:
<http://smplayer.sourceforge.net/>
- Provides thermal overview of environment and incident
- Same highly durable housing as Evolution TIC transmitter
 - IP67-rated for ingress protection
 - NFPA 1981:2002 edition—simulated heat and flame tests
 - MIL-STD-810 loose cargo transport vibration requirement
- Same lithium-ion rechargeable battery and charger as Evolution 5000 Series TICs
