

TECHNICAL DATA SHEET

SCRAPEX 596 NO. 596

Safety technology

Order No. 596.03

Nothing stays behind except satisfaction.

The SCRAPEX 596 is the largest scraper in our product range together with the even longer SCRAPEX 5196. Use it for effortless removal of stickers, labels and other paper, colour and paint residue on all smooth surfaces. You can work especially effectively with the 100 mm long blade. Your professional tool also convinces with a non-slip handle and the built-in safeguard.

Robust and durable

The 11 cm long handle is made of die-cast zinc. What does that mean to you? Definitely a scraper with a long life, also armed for the hardest of jobs.

Broad user surface

Considering it has a blade length of 100 mm, you are already working on a large area of use. So you clearly don't have to use your scraper very often to clean a certain surface.

Safeguard included

To cover the wide blade, release the special screw manually and push the blade cover to the front with your thumb. Now turn the screw on again to shut it and everything is safe.

Non-slip handle

A tool of such dimensions should not slip in your hands. Of course, we have thought of that - and have therefore equipped the handle with a non-slip soft-grip and small pores that are friendly to the hands.

Easy blade changing

The special screw will also help you change blades. Turn it open and remove the blade cover. Now you can take out and change the blade.

SECURITY ADVICE

To ensure that you use your new MARTOR knife safely and most effectively, please read and note the following user-instructions. Please keep the written guide in a safe place so that you can access it at any time.

1. General application instructions: Please use the product carefully for cutting work only and not for any purposes other than those that are intended. Please take the correct handling and the proper use of the knives into account in this regard.

2. Special application instructions to avoid the danger of injuries: Only use knives that are in perfect condition and have sharp, clean and undamaged blades. employ the utmost care when handling the knives.

CAUTION: The blade is sharp and can result in serious and deep cuts. Therefore, never reach into the blade! To reduce the danger of injuries, hold the hand that is being used to restrain and stabilise the cutting base in such a manner that the restraining hand or even other body parts are not endangered in the event that the knife slips.

3. Replacement of spare parts: Replace any blades that become dull at the right time! Use only the replacement blades available at MARTOR for this purpose. Dispose of old blades in a proper fashion. They should not be placed in a waste

paper bin, as this poses a considerable danger of injuries. Never perform any repairs yourself. If the knife displays signs of aging or other wear, e.g. function problems when changing the blade or in the handling of the blade pushers, then it must be rejected and replaced with a new one. Any modifications or manipulations to the product are prohibited, as they impair the product safety. CAUTION: There is an extremely high danger of injuries here!

4. Non-use of the knife: Always secure the blade in such a way that injuries due to cuts are excluded. Store the knife in a secure place.

5. Care instructions: Always keep the knife clean and do not expose it to unnecessary humidity to safeguard a long service life.

CAUTION: No liability will be assumed for consequential losses. Subject to technical changes and errors! This knife does not belong in the hands of children!]

ACCESSORIES

USED BLADE CONTAINER

NO. 9810

You can fill the USED BLADE CONTAINER with the content of your SAFEBOX. Or directly with your used blades. When the box is full, turn the lid until it shuts. Now the box cannot be reopened. The next step is to safely and completely dispose of the filled USED BLADE CONTAINER.

WALL MOUNT BRACKET USED BLADE CONTAINER

NO. 9845

Include it in your order now! With this mounting bracket you can fix your USED BLADE CONTAINER to a central location. Use the clamp and screws and nuts supplied with the product to attach it to either a pipe or a rod.
